AT SEAT OF WAR.

Is No Immediate News, Neither Through Press Dispatches Nor Official Sources.

JAPS MET A FRIGHTFUL DISASTER.

As a Column of 700 Were Marching Along a Road at Night a Russian Mine Exploded.

Japanese Rifles, Legs and Arms Went Hurting Through the Air, and the Hillsides Were Strewn With the Dead.

New York, Sept. 9.—What is happening at the seat of war in known only to those on the ground. There is no immediate news, neither through the medium of press dispatches, nor from official sources. Kuropatkin reports, in a telegram sent Wednesday evening, that he did not lose a single gun in his retreat, and that Kuropatkin is on his east flank and Okuno on his left, and St. Petersburg officials surmise that a big battle may be fought immediately if the Japanese continue to press on to Mukden. The story of bad roads and hampered transport is repeated, and from Mukden, in the last dispatch received, comes the significant intimation that "there is an interesting movement toward Tie Pass," the nature of which is not disclosed.

Chee Foo, Sept. 9.—A Japanese column, numbering approximately 700 men, while marching along at night on a road in the valley between Long Hill and Davison Hill, met a frightful disaster, through the explosion of an electric land mine on September 1. The mine was carefully laid by the Russians three weeks ago. It covered nearly a mile of available marching space. The explosive was placed at the bottom. Rocks were placed next, and on top of these clay was packed so carefully that the ground gave the impression of not having been disturbed. The indications of Japanese activity in this vicinity put the Russians on guard. Near midnight the outposts rushed in and reported that the Japanese were approaching. The Russians withheld their fire for some time. Suddenly they threw a searchlight up the valley. The Japanese opened with a rifle fire. The Russians waited until apparently the whole Japanese column was in the danger zone. Then the mine was exploded.

The force of the explosion knocked a number of Russians down, and the sight of Japanese rifles, water bottles, legs and arms hurtling through the lighted space made by a searchlight, was an awful spectacle. Some rocks landed inside the Russian lines. There was one appalling moment, during which the garrison itself was stunned, then a death-like silence. The searchlight coldly lighted up the road and hillsides strewn with dead. The following day the Russians buried the dead, but, owing to their dismembered and mutilated condition, the Russians were unable accurately to estimate the number of killed. A few Japanese escaped.

THE RUSSIAN ARMY.

It Will Be Reorganized Probably in the Form of Two Armies.

St. Petersburg, Sept. 9.—Besides the formation of two fresh army corps, as the first answer to the Japanese success at Liao Yang, the Russian army at the front will be reorganized, probably in the form of two armies, in command of Gen. Linevitch and Gen. Baron Kaubars, respectively, with Gen. Kuropatkin as commander-in-chief. Gen. Kaubars will go out with the two army corps now organizing in the government of Kazan, Odesa, Vilna and Kief. Gen. Linevitch has been ordered by telegraph from Vladivostok to Mukden. This decision is due in part, doubtless, to the growing unwieldiness of the big force of Gen. Kuropatkin's command, which will be largely increased by constant reinforcements.

Promoted to Rank of Rear Admiral. St. Petersburg, Sept. 9.—By an imperial decree Capt. Viren, commander of the cruiser Bayan, who, it has been reported, is to replace Rr. Adm. Prince Ouktomsky in command of the Port Arthur squadron, is promoted for the rank of rear admiral.

Anniversaries of Mexican Battles. Mexico City, Sept. 9.—The anniversaries of the battles of Molino Del Rey and Chapultepec were celebrated Thursday with appropriate exercises. President Diaz presided over the ceremonies, which were impressive and beautiful.

St. Petersburg, Sept. 9.—Persistent reports are in circulation of serious anti-Jewish disturbances in several of the governments of Southwest Russia.

GEOGRAPHICAL CONGRESS.

Time Signals Sent Out From United States Naval Observatory.

Washington, Sept. 9.—Thursday night the International Geographical congress was given a reception at the United States naval observatory, on Georgetown Heights. The reception closed with a series of time signals, extending over five minutes, and ending exactly at midnight by 75th meridian time. The leading observatories of the United States were told of the intention of the observatory officials to send out the signals, and messages of reply were received from a number of them. President Roosevelt, at Oyster Bay, was invited to join in the telegraphic loop and accept a message from the congress, of which he is the honorary president. The following messages were sent:

"The president, Oyster Bay, the Eighth International Geographical congress, at the close of its first day in the capital of the United States, as indicated by the midnight time signals from the naval observatory, sent out in its honor, begs to tender its cordial thanks for its hospitable welcome in America."

"President Diaz, City of Mexico, the Eight International Geographical congress, on the first day of its meeting in America, offers its cordial greeting, with pleasant anticipations of a visit to your capital."

Messages of greeting were also sent to President Frances, of the St. Louis exposition; Senator Depew and Stuyvesant Fish.

BANKRUPT TREASURY.

State of Mississippi Has Just \$1.56 in Its Vaults.

Jackson, Miss., Sept. 9.—The state of Mississippi has in its treasury \$1.56, and there is no relief in sight. Much doubt is expressed in financial circles whether a firm in New York and Chicago brokers, who recently purchased a bond issue of \$500,000, will pay for it, and the banks of the state seemingly are unwilling to advance money for immediate use. No payments of taxes are due for 30 days, and a proposed special session of the legislature could not bring relief within that period.

A RACE WAR.

Clash Between Whites and Blacks at Pava, Ga., is Imminent.

Macon, Ga., Sept. 9.—Specials from Pava, Ga., say that a clash between whites and blacks is imminent. The whites are alleged by the Negroes to have burned a hall in which a "Before Dawn club" was supposed to meet. The Negroes have organized in armed bands outside the town and sent challenges to the whites, who are armed in anticipation of an attack. Moultrie has been called on for assistance, and the militia there is ready to go at a moment's notice.

NOMINATED FOR GOVERNOR.

James H. Moyler, the Democratic Candidate in Utah.

Salt Lake City, Sept. 9.—The democratic state convention Thursday nominated James H. Moyler, of Salt Lake City, for governor; Judge O. W. Powers, for congressman, and adopted a platform which reflects on the recent revival of charges of church interference in Utah politics and the reorganization of an anti-church party, by denying the right of any power to dictate political nominations.

FIRE AT JELICO.

Prisoners Freed to Help Fight the Flames.

Jellico, Tenn., Sept. 9.—Jellico, Ky., was visited by a disastrous fire Wednesday night, and 16 buildings are in smoldering ruins as the result. The entire loss is \$15,000. The city jail and courtroom are included in the loss. Several prisoners were released to fight the fire. Jellico, Ky., was visited by a fire in 1897, in which 32 houses were consumed.

THE BROWN ARMY.

As Many as One Hundred Prostrations From Heat Was Reported Among the Men.

WERE CARED FOR IN HOSPITALS.

Gen. Grant, Commanding the Blue Army, Has Taken Up a Strong Position Behind Bull Run.

The Position Was Selected in Defense of Washington in Order That it May Be Easy for Reinforcements to Join Him.

Corps Headquarters, Ganesville, Va., Sept. 9.—Gen. Grant, commanding the blue army, has taken up a strong position behind Bull Run. This fact has not yet been ascertained by Gen. Bell, commanding the attacking brown army. This advance along the Wellington pike has been harassed just west of Pagel and Lane by the First brigade of Gen. Grant's army under Gen. Wint. Gen. Bell opposed this force with his First brigade, under Gen. Lee. Taking this as his adversary's center, he threw the brigades of Barry, Regan and Smith to the right of Lee, seemingly in an effort to get around what would be the original left wing of the blue army. When night-fall came at 3 o'clock this had not been accomplished, owing to the distance, and the main line of the blue army was behind its rear guard of Wint's brigade.

Gen. Grant selected the position behind Bull Run, in which to defend Washington, in order that it might be as easy as possible for his reinforcements, which are on the way, to join him. His position is not what Gen. Bell evidently has calculated on in ordering his turning movement, so the situation to be developed Friday is one of exceeding interest. For this reason Gen. Bell's army is as yet fully two miles from the main position of his adversary, and his advance is being opposed by a single brigade. Gen. Corbin has traveled the lines of both armies, giving particular attention to the condition of the men. When the two armies come into actual contact Friday, if this should be the case before 3 o'clock, Gen. Corbin will declare the maneuver at an end, in order that the men may get in condition for the review Saturday. So far as the war problem is concerned, the benefit to the men and officers lies in the maneuvering for position. When the forces collide the respective strength each side in each locality has decided the advantage, rather than the shooting of blank cartridges. The fighting between the two First brigades of each army Thursday resulted in forcing the blue brigade back through a strip of woods it had occupied just south of the Wellington pike, and west of Pagel and Lane. Artillery was used by the brown army in this action, the fire being directed into the woods. This was followed up by the advantage of the brown line, and the falling back of the blue, under the direction of the umpires. The delay of the march to position until 9 o'clock Thursday is a matter of complaint on the part of the brown troops, as many as 100 prostrations from the heat having been reported among the brown troops, who were compelled to move in the middle of the day. These men have been cared for in the hospitals in the camps of No. 2 and No. 3, and in the farm houses along the road.

THE GOEBEL MONUMENT.

Frock Coat Restored, and the Committee Are Satisfied.

Lexington, Ky., Sept. 9.—The clay model from which the bronze statue of the late Gov. Goebel will be cast is now complete, and has been accepted by a portion of the committee.

The figure will show the image as wearing a frock coat, an idea which had once been rejected, but afterward restored by order of the committee. The facial expression has been improved, and it is now an excellent likeness of William Goebel.

Five members met Thursday and accepted it. These were Senator J. B. McCreary, Miss Salie Jackson, Mrs. Edward Fennell, Mrs. Charles Lewis and Arthur Goebel. There were not enough to make a quorum, but Senator McCreary, as chairman, decided that it was not necessary to have a quorum to accept the model, as the first acceptance would be made of the bronze statue.

Signor Moretti, the sculptor, will take the model to New York in a few days and there complete the work. It will return ready for being put in place during the month of October.

Lexington, Ky., Sept. 9.—Notice was Thursday served on the officials of the Blue Grass Consolidated Traction Co., that a motion for the appointment of a receiver would be made in court on Wednesday morning, September 21.

This company is incorporated for several million dollars, and George B. Davis, of Detroit, is the president of the company. Outstanding claims amount to only about \$50,000, which the company is unable to pay.

The object of the company is to build interurban roads to nearby towns, and a small fortune has been spent in securing franchises in three counties, and for leveling the road bed and paying taxes for the incorporation.

HIS THIRD TRIAL.

Charged With Complicity in the Murder of Lieut. Johnson.

Cadiz, Ky., Sept. 9.—The third trial of Lawrence Willis, charged with the murder of his uncle, Lieut. Johnson, was called Thursday, but on motion of the commonwealth, some witnesses being absent, it was continued until next Monday, and the trial of his mother, Mrs. Bessie Willis, who is indicted jointly with him, was begun. BUTCHERS' STRIKE

It Has Been Officially Declared Off by President Michael Donnelly.

SYMPATHETIC STRIKES ALSO OFF.

The Packers Will Give Places, as Far as Possible to the Skilled Workmen.

Estimated Loss to the Men in Wages is About \$5,000,000, and About \$7,500,000 to the Packers in Loss of Business.

Chicago, Sept. 9.—The strike of the butcher workmen, which had been on for the last two months, was officially declared off Thursday by President Michael Donnelly, of the Amalgamated Meat Cutters and Butcher Workmen of America. Thursday morning Mr. Donnelly conferred with the members of the national executive committee, asking their consent to an announcement of the end of the struggle, and then, having received favorable answers from all, he declared that the strike of the members of his organization would end at midnight.

The strike of the members of the affiliated unions at the stockyards, who quit work in sympathy with the butchers, will officially be called off Friday morning at a meeting of the conference board of the allied trades. This was decided on at a meeting of the central body of the allied trades on Thursday night.

Mr. Donnelly said his men were defeated, and that in order to save his union from disruption he would order his men to return to work in the morning, no matter what course might be taken by other unions. As the other unions had no grievance of their own, but had gone on strike to aid the butchers, there was nothing left for them but to follow the lead of Mr. Donnelly, and they, too, decided to call off the strike, as far as they were concerned.

When the packers were advised on Thursday night that it had been decided to end the strike, they announced that they would give places, as far as possible, to the skilled men, but it was said at the same time that many of these men would be unable to secure their old places, as in many cases the work was being performed in a satisfactory manner by men who had been secured since the commencement of the strike. It is expected that the majority of the unskilled men will be unable to secure their places again. It was the question of a wage scale for this class of men that brought about the strike, the packers refusing to sign an agreement with any class other than skilled workmen.

During the strike approximately 53,000 persons have been involved in the struggle, which is estimated to have cost the men about \$5,000,000 in wages, as against an estimated loss of \$7,500,000 to the packers in loss of business, and in increased expenses. The greater number of men idle in Chicago during the strike was 26,600, and the total in the country outside of this city is estimated to be about the same.

The original cause of the strike was a demand by the butchers' union that the packers pay to the unskilled workmen 18½ cents an hour. The packers refused an agreement, but offered to arbitrate the question.

A LACK OF DEMAND.

There Was a Decrease of Anthracite Coal Production During the Year.

Philadelphia, Sept. 9.—The statistics on the production of anthracite coal during the month of August, issued Thursday, show a decrease of 837,548 tons compared with the same month last year. The tonnage for August was 4,331,854. The production for the year up to September 1, was 38,212,228, against 42,431,849 for the corresponding period last year. The decrease in production is due to the numerous suspensions of operations because of lack of demand.

San Francisco, Sept. 9.—The Occidental and Oriental Co.'s steamer Coptic sailed Thursday for Hong Kong, via Japanese ports. She carried a cargo of general merchandise, including 1,200 tons of flour.

Some of Chairman Babcock's utterances of a few years ago in favor of tariff reform are being used by the Democrats as campaign material. In a letter written in 1901 he took strong grounds against the policy of protection and urged a reduction of the tariff on many articles.

Some of the rural mail carriers throughout the State who have been assessed for election purposes are said to be kicking like untamed steers. Don't do it boys, you know you have got to take your medicine if you expect to retain your positions. The Republican bosses know that the federal employees all over the country are the main reliance in this campaign and every effort is being made to bleed them for all they will stand to the end that the party might be continued in office.

The demand for campaign contributions came from Mr. Cortelyou of the National Committee and failing to get the immediate response that was expected, Chairman Long of the State Finance Committee, it is charged, issued a circular to all letter carriers and revenue men demanding a specific contribution for campaign purposes, and not meeting with the hearty appreciation which it was believed he would command, Mr. Charles H. Berryman, formerly Deputy Revenue Collector under Colonel Roberts, and now Treasurer of the local campaign committee, has joined in the gouge game and his letter has been sent out on the same errand.

It's simply a case of put up or shut up.

Weather Forecast.

The national banks throughout the country have received a call from the Comptroller of the Currency for a statement of their condition at the close of business, September 6th.

The report in circulation yesterday that Bill Hickie was dead is untrue. The false information was given the BULLETIN too late to verify before going to press. He is at the almshouse, getting along very well. His leg was not taken off, either.

Mrs. Van Gallager, colored, aged fifty-four, died Thursday morning at her home on the Taylor's Mill pike of heart trouble. She had been afflicted since her son, Dick Coleman, committed his brutal crime a few years ago. Burial this afternoon in the Wells burying ground in the neighborhood of her home.

FACING THE TASKMASTER.

Pupils of the Private, Parochial and Public Schools Sipping Knowledge at the Pierian Spring.

The Principal and his assistants in the various public school districts were a busy set the first of the week. They all had their hands full enrolling the hundreds of pupils who were present Tuesday, the opening day.

Many parents do not send their children to school until the beginning of the second week and statistics will not be in good shape probably until then. However, the enrollment up to the present time in the High School and first, second, third, and fourth districts number 546.

The Catholic parochial school had 140 on the roll at last accounts and more were expected to report later on.

The private institutions—Hayswood, Miss Gordon's and Miss Emma Campbell's—will open next week, and as these schools are assured of a large attendance, it will be seen that when all are in full swing the number of pupils all told will exceed that of previous years.

Below is printed a complete list of the books now required in the district schools. The exchange price, retail price and price of books formerly used are given:

While the actual price per book has been reduced the new books are much smaller than those formerly used. It is shown that while there is a difference of 22 per cent. in price, the purchaser gets 26 per cent. less material in the new

books than there is in the old. The claim is made also that the new books are not so satisfactory as the ones in former use and that they will prove a disappointment. As to that, however, time alone will tell.

Colonel Walter Sharp of Bath says: "The tobacco crop in our county and for four or five counties around us, is as fine as I ever seen," "I expect to see the better grades go at 12 cents this season. Notwithstanding it has been dry in some localities the aggregate yield in our State will be fully up to the average owing to the increased acreage. All the crops are first-class in our section, and every Democrat is in line. Kentucky will give a Democratic majority of not less than 25,000."

The Democratic Campaign Managers of Lexington have issued a statement claiming they have discovered that a political poll of the city has been taken by letter carriers regularly employed at the postoffice. Dressed in plain clothes, it is declared, they represented themselves as official census takers for the government and obtained the desired information from the women, while the men were at business. They obtained the names of all the mail residents and their political affiliations. Substitutes, it is asserted, were put on to deliver the mail while the "regulars" were taking the poll.

From information given a correspondent by one acquainted with the facts, it isn't surprising that Maybrier, the murderer of Jailer Thompson, should have been the character he was. His father and mother were continually in a row with each other and were known to have exchanged shots on more than one occasion. It is said that once she ran her husband out of the house with a large butcher-knife. The elder Maybrier some years ago shot the owner of the farm upon which he was a tenant, and they were noted as an all 'round set. The son had more pistols than one and not much of anything else, living in a cabin. The Jailer hadn't anything but a common walking stick, nothing like a pistol. Here was a good citizen, deprived of his life by a worthless vagabond.

THE AUTO-PIANO

The Invention of the Age—Call at John I. Winter's Store and Examine This Marvel.

In appearance it is only a handsome Mahogany Piano, such as you see in many fine homes, but with it, those who are fine performers, can produce a volume of harmony beyond the ordinary piano, while those who are unable to play one single note of music by simply pressing a concealed button can play the most difficult composition of the old masters, as only a Paderewski can. Your friends will think that you have become a fine performer in a night. It is wonderful.

ARMSTRONG--RUSSELL.

Brilliant Nuptials of a Popular Couple at Flemingsburg Thursday at Six O'Clock.

Elmemere Place, the grand old Armstrong home at Flemingsburg, was the scene of a happy matrimonial event last evening.

Just as the shades of night were assembling, Rev. J. S. Sims, Presiding Elder of the Covington District of the Methodist Episcopal Church, spoke the beautiful words that united Miss Lillian Isabelle Armstrong of that interesting little town to Mr. James Barbour Russell of this city.

It seems useless to say that the wedding was an elegant affair. The prominence of both parties affording sufficient guarantee that the nuptials were charming in every detail. The parlor, where the ceremony was performed, was made especially attractive by the magnificent floral decorations.

Mr. Hord Armstrong, a brother, gave the bride away, and Mr. Thomas M. Russell acted as best man. Mr. Edwin Pearce of Lexington and Mr. Harry Dudley of Flemingsburg were the ushers.

Miss Armstrong's attendants were Miss Christine Bradley, daughter of ex-Governor William O. Bradley of Louisville, Miss Belle Mitchell Dudley and Mrs. Joseph Hendricks of Flemingsburg, Matron of Honor. Miss Susie Armstrong, sister of the bride, and Miss Elizabeth Andrews were the ribbon-bearers.

After a sumptuous wedding dinner the bridal party drove to Maysville and left last night on the C. and O. Flyer for an extensive eastern trip.

After the honeymoon Mr. and Mrs. Russell will reside with the groom's mother at her pretty home in this city.

A man can win nothing more precious on this earth than the love of a pure and pretty woman. In this union, Barbour is to be doubly congratulated by reason of his bride's many accomplishments.

Mr. Russell has long been identified with Maysville's business interests. He is the head of the M. C. Russell wholesale grocery house, a prominent Odd-fellow and a worthy gentleman in every sense.

The BULLETIN extends its best wishes. Mrs. M. C. Russell, Mr. and Mrs. C. D. Russell, Mr. and Mrs. T. M. Russell, Mrs. Dr. Holton and Mr. J. C. Kackley attended the wedding from this point.
